

# TU NHAT PHUONG

## FRONT-END, BACK-END DEVELOPER

**Phone:** 0378630804  
**Email:** phuongtu590@gmail.com  
**Website:** <https://qsh.at/g20>  
**Address:** Trang Dai, Bien Hoa, Dong Nai

### OBJECTIVE

I am self-learning and researching in the field of mobile app and website development centered around Node.js and React. Despite my limited practical experience, I have independently built and completed numerous projects in this domain. My goal in the near future is to become a Fullstack Developer, enabling me to create high-quality products that meet user needs.

### SKILLS

Programming languages	Javascript, Typescript, C#
Framework / Platform / Library	React, Nodejs, ASP.NET, Express
Database	MongoDB, MS SQL Server
Others	I have knowledge of source code management with GitHub and Azure DevOps, expertise in the Google Maps Platform, and experience in teamwork and problem-solving.

### ACTIVITIES

June 2023 - Current	<p><b>Project: Health Safety Security and Environment (Website)</b></p> <p><b>Description:</b> Health Safety Security and Environment is a private project of MSA Consulting and Technical Service JSC that deals with safety observation reports regarding vehicle inspections.</p> <p><b>Role:</b> Front-end Support</p> <p><b>Specific Tasks:</b> Building user interfaces and functionalities (such as user management, login/logout, homepage, etc.) using TypeScript on ReactJS based on pre-designed requirements from the supervising personnel.</p>
